How to use this graph

This graph displays new car sales transactions from the past month for cars similar to the one you want. The data is organized by price, giving you a comprehensive picture of the market, so that you can easily recognize a fair price for the car you want. As you browse vehicles, use this graph to help you decide if a car's price is right for you.

MSRP

The Manufacturer's Suggested Retail Price ("MSRP"), sometimes known as the sticker price, is the retail price suggested by the manufacturer. Because the price is a suggestion from the manufacturer, a dealer can choose to sell a vehicle above or below the MSRP. Many vehicles are sold below MSRP.

MPG

Based on current year EPA mileage ratings. Use for comparison purposes only. Your actual mileage will vary, depending on how you drive and maintain your vehicle, driving conditions, battery pack age/condition (hybrid models only) and other factors.

Vehicle Availability

The vehicle displayed on this certificate was identified in-stock at Toyota on Western through its frequently updated inventory feed. Please note that this vehicle may not be identical to your configured vehicle. This vehicle is subject to prior sale and may become unavailable after it has been identified to you. Pricing on an in-stock vehicle is provided by Toyota on Western through TrueCar's proprietary tools.

Other Charges

Your Toyota on Western will detail the tax, title, license, and other governmental fees to arrive at the final out-the-door price of your car. Although you do not pay TrueCar for your use of the service, TrueCar receives a fee from participating dealers in connection with the service.

Your Program Price

The Program Price is an offer directly to you. It includes the vehicle's MSRP minus incentives and dealer discounts. It excludes dealer fees and accessories, applicable tax, title, licensing, other state and governmental charges and/or fees, and is subject to change based on incentives eligibility. TrueCar does not set vehicle pricing and is not responsible for errors in the pricing information given to you by a certified dealer through a TrueCar-powered platform.
